Continuation of Substance of Interview including description of the general nature of what was discussed: Attorney will consider amending claim 3 by replacing "solvent is" with --first and second solvents are--. Attorney stated that before they could give any authorization to cancel claims 30-36 and 38 via examiner's amendment, they would like to know the reason why these claims are being canceled. Examiner stated the reason why cancellation of claims 30-36 and 38 is necessary is because the examiner considers the claimed composition to be inherently taught in WO 00/15551. The attorney asked if the examiner considered the limitation to claim 30 that the composition has a defined nitrogen or argon adsorption-desorption isotherm. The examiner noted that this limitation only means that the composition has at least one type of pores, as evinced by pg. 17 Ins. 9-12 in the applicants' specification. The attorney stated that if the examiner doesn't hear anything from the attorney by tomorrow, then to issue another Office Action..
